COUNCIL REAFFIRMS CONDITIONS FOR NANTON ST. WHARF PURCHASE

LAC LA BICHE — Town council met Jan. 14 for the first meeting of the year, with Councillors James Hamar, Eli Tkachuk, and F. W. McMillan present, as well as Mayor Steve Hamar and Secretary F. Creighton.

A letter from the federal department of public works was read asking what the town intended to do about the two docks on Lac la Biche. The secretary was asked to re-affirm the position taken by the council more than a year ago, when the offer was made to buy the Nanton Street wharf for $1 and assume responsibility for its future maintenance, providing the department would first repair both structures and put them in good condition.

A letter was read from the Chamber of Commrece, asking if town residents could be warned by council not to allow children to use town streets for coasting with hand sleighs. Council discussed the matter and agreed that the question was serious, but it was noted that a warning in this regard had already appeared in the local paper. Some thought was given to providing a slide for coasting, but it was felt that this would create more problems than it would eliminate. The suggestion was made that this might be a project for a service club to tackle.

An application for a building permit was approved for the Imperial Oil Ltd. bulk plant. Some additions to the plant are soon to be undertaken.

The subject of fixing upset prices for lots advertised for sale by auction on Jan. 17 was introduced. It was agreed that a starting price of $200 be set for each of the lots offered.

Bylaw No. 290 was given third and final reading.

An application for relief was turned over to the welfare committee for investigation.

Only 11 Hours Given Jr. Hockey Practice

LAC LA BICHE—The skating rink committee reports a successful meeting was held at the home of Mr. and Mrs. Marshall Hamar with nine representatives present from various organizations.

The Rev. R. Greene gave a vote of thanks to all organizations who donated toward the 1958 budget, and to Mr. and Mrs. A. Proctor for donating a building which has been moved and is being used as dressing rooms. A new amplifier has been purchased and is now set up. More lights are to be put in the near future.

A lengthy discussion took place on time allotted to free skating and hockey. It was decided to give from 4 to 6 p.m. on Tuesdays and Fridays to junior hockey practise as 9 to 10 p.m. was considered too late for youngsters.

Free skating amounted to approximately 46 hours a week, while only 11 hours were allotted to hockey practise. A time table is posted in the rink house and copies may be obtained.

Father McGrane left by T.C.A. last week for Victoria to spend several weeks with the Royal Canadian Navy on the west coast.

GRAIN BARTER TERMED LEGAL

CALGARY (BUP) — Canadian Wheat Board officials have declined to comment on the barter in grain which has sprung up across the prairies.

According to the terms of the Wheat Board Act, farmers may be on sound legal grounds in exchanging their grain for television sets, refrigerators and farm machinery. There is apparently no prohibition against a farmer selling his wheat to a merchant for a TV set if the merchant sells the grain for feed. If the merchant or another farmer attempt to resell the grain to an elevator then the law is being broken.

The bartering of grain has become much more common during the past few months.

A new choir has recently been formed which holds regular practices in the residence of Miss Noonan, church organist. Appointed rector's warden by the Rev. R. S. H. Greene was Ed Sundlie. He succeeds Mr. John Meyer.

M. Watamaniuk was elected people's warden for a second term and Mrs. Mildred Sundlie was re-elected parish secretary. It is hoped that the church may be repainted next spring.

Four Parties Vie For Mock Parliament Seats

EDMONTON (BUP)—The campaign for Friday's elections for the University of Alberta's model parliament is well underway with candidates from the four political parties contesting for seats in the 45-member house.

The Conservatives formed a minority government last year. The opposition was formed by the Liberals, CCF, Social Credit and two Labor Progressive members. The LPP is not fielding a candidate this time.

The Conservatives—headed by Ian Spence—oppose the Alberta government oil royalty dividend and are asking for a Canadian bill of rights, the reduction of method courses in the faculty of education curriculum and the establishment of a "lover's lane" along the banks of the North Saskatchewan river.

The Social Credit campus party is campaigning for "reform" of the Gateway (student newspaper) including the elimination of "prejudice" from political articles and return of the paper to "student control."

The Liberals call for comprehensive assistance for students under a federal-provincial plan and higher salaries for university professors.

Alberta Minister of Highway Gordon Taylor will serve as Lieutenant-Governor of the mock parliament Jan. 30 and 31 in convocation hall.

Two Injured In Elevator Fire

CALGARY (BUP) — Two men were seriously injured Tuesday in an explosion and fire at a large Calgary grain storage elevator.

Frank Mudleston and Joe Pollock, employees of Burns, were reported in fair condition in hospital. Eyewitness said the entire west wall and roof of the 90-foot elevator in south Calgary blew out suddenly in a mass of flames and debris.

Firemen prevented the flames from spreading although hampered by lack of water.

Officials said preliminary estimates of damage is in the region of $170,000. A total of 100,000 bushels of grain were destroyed in the blaze of unknown origin.

She was 82 years of age. She was a former member of the Stony tribe before coming to the Sarcee reserve in 1915. She was a sister of the late chief David Bearspaw of Morley. Mrs. Grasshopper is survived by three children, five grandchildren, 16 great-grandchildren and one great-great-grandchild.

Brokers Advocate Mail Advertising

Part of real estate broker's advertising budget should be set aside for direct mail advertising, advises a news bulletin just released by the National Institute of Real Estate Brokers.

Stan Melton, NIREG representative for Alberta, said the plan doesn't advocate forgetting all other forms of advertising and using the entire budget for direct mail, but states brokers should use it selectively.

Bold Action Urged On Farm Problems

OTTAWA — Prairie wheat pools told the federal government Monday "bold and imaginative action" is needed to correct "the cost-price squeeze undermining the agricultural industry of western Canada."

In a brief presented to the wheat committee of the cabinet, top pool officials urged the government to make deficiency payments to grain producers on wheat, oats and barley delivered to the Canadian Wheat Board during the 1955-56 and 1956-57 crop years.

President J. H. Wesson of the Saskatchewan Wheat Pool said his group got a "good reception from the prime minister and his colleagues."

PROBLEMS UNDERSTOOD

"They showed a very good unterstanding of the problems of the western grain farmer. They indicated that they understood the problems arising out of the drop in farm cash income since 1953 on the Prairies, coupled with the spiralling costs of production."

Members of the cabinet wheat committee are Prime Minister Diefenbaker, Agriculture Minister Harkness and Northern Affairs Minister Hamilton.

With Mr Wesson were W. J. Parker, president of the Manitoba Pool Eelevators, Gordon Harrold, president of the Alberta Wheat Pool and Dr. H. H. Hannam, president of the Canadian Federation of Agriculture.

The grain organization officials said legislation introduced by the Progressive Conservative government during the current session does not solve the problems of the Prairie farmers.

WHEAT EXCLUDED

Legislation has been passed providing cash advances on farm-stored grain and a bill is before the House to provide price supports for certain agricultural products. Western wheat is excluded in the proposed support prices legislation.

"We are convinced this question of grain prices and farm costs must still occupy a very prominent place in the government's list of unsolved problems," the brief said.

The wheat pool organizations called for a domestic price on wheat which is higher than the current export price level. They urged the government to establish this on the basis of the index of costs of production and Canadian living standards.

The brief said that since 1947 there has been an increase of 50.3 per cent in the cost of commodities and services used by farmers and a drop in the average price of wheat of 20.8 per cent.

DEATH HOUSE BURNED DOWN

CHOWCHILLA, Calif — The house where little four-year-old Sandra Marie Schlinder died after an admitted 45-minute whipping by her parents was burned to the ground by its owner.

Landlord Ray Flanagan put a torch to the house while Mr. and Mrs. Claude William Schindler were being arraigned in court on murder charges.

"I talked it over with my wife" Flanagan said, "and we decided to burn the place down. We knew we could never look at the place again knowing what happened there."

District Attorney Lester Gendron reported an autopsy showed the little girl had been struck more than 200 times and died of shock Tuesday.

CAN WE STAND FOUR-DAY WEEK?

When Walter Reuther, the dynamic leader of the United Automobile Workers, calls his cohorts together in a conclave at Detroit next week, it will be another milestone in his determined battle to bring about the four-day week, writes Lee Parsons in "Are We Ready For The Four-Day Week?" in the current issue of The Star Weekly.

This controversial issue has been seized upon by Reuther as the next "prime demand" of the union, states Parson's article, and the coming fight is the biggest thing in management-labor relations since the International Typographical Union won the eight-hour, six-day week.

"And where wil lit all end?" asks Parsons, Will humans be able to enjoy their respite from labor and embark on a golden age of understanding and tolerance? Or will a race of softies and neurotics be the heirs of man's ingenuity?

Parsons points out giant strides in technology during the present century have made it possible for the 1958 worker to produce six times as much as his grandfather did for every hour on the job.

And it's likely this will show further sharp increases when automation really gets underway in years to come, says the writer.

Whatever the individual may think of the four-day week idea, it's high time to consider the ramifications in leisure it would bring, Parsons declares in this significant thought-provoking article in the current Star Weekly.

INDIA WHEAT TO MOVE SOON

OTTAWA — The first half of a 15,000,000-bushel sale of Canadian wheat to India will be shipped through Atlantic ports as soon as shipping can be obtained, Trade Minister Churchill said.

He was replying in the Commons to Hazen Argue (CCF—Assiniboia), who suggested at least a good part of the wheat for India and any sold later to other Colombo Plan countries be shipped through eastern ports. Mr. Argue said this would help to equalize grain delivery quotas in Manitoba and Saskatchewan with those in Alberta, which is nearer the port

STORAGE AFFECTS POTATO QUALITY

OTTAWA—Potatoes are an important vegetable crop both commercially and for the home garden. They also constitute a valuable source of vitamin C in the diet, particularly during the winter months when the supply of fresh green vegetables is limited. It is not surprising that the question, what happens to the quality and nutritive value of potatoes during winter storage has frequently been raised. The limited information on this subject prompted a study to be carried out, of the effects of type and duration of storage on cooking quality and vitamin C content of potatoes, at the Federal Fruit and Vegetable Products Laboratory Morden, Man.

Varieties included in the study were Irish Cobbler, Pontiac, Warba and Waseca. Two types of storage conditions compared were earth cellar storage and refrigerated storage, with relative humidities of 92 and 92 degrees, respectively. A comparable temperature of 38 degrees was maintained as closely as possible in both cases. All samples were examined for vitamin C and cooking quality at bi-weekly intervals from October to April.

Results after two years indicated the superiority of earth storage of potatoes over refrigerated locker storage for color and vitamin C content. The higher relative humidity in the case of the former probably accounted for part of the beneficial effects. The type of storage had only a minor influence on texture and specific gravity. The flavor of the earth cellar samples was slightly preferred.

As the period of storage increased under both test conditions there was a downward trend in general quality. In particular, vitamin C content was reduced by approximately 40 per cent, although the decline was gradual. To a lesser degree, color, texture and flavor ratings also decreased. Color changed from white to shades of yellow or grey, and a dry, mealy texture became progressively more suggy. But it was observed that earth cellar-stored potatoes retained their color surprisingly well.

Ray Prochaska To Follow Leader

EDMONTON (BUP)—Edmonton Eskimo President Cec. Ross has announced that assistant coach Ray Prochaska has turned down the post of Edmonton head coach to remain top aide to Frank Ivy—who became head coach of the Chicago Cardinals last week.

Ivy went to the National Football League club after four years with Edmonton—during which he piloted the Western Football Conference club to three Grey cups.

Ross says the Eskimos have already received several applications from U.S. college coaches for the post left vacant by Ivy.

Cardinals managing director Walter Wolfner says "This is a real tribute to Coach Frank Ivy."

He says "Prochaska has been offered the head coaching job at Edmonton and also at Regina—and turned them both down to stay with his old boss."

Bridge winners at Mrs. Anne Semenuiks home were Mrs. Lillian Derko, first, and Mrs. Anne Andruski, consolation.

CLERIC FACES LONG TERM

BUDAPEST — A communist prosecutor called here for a "most severe sentence" for Msgr. Egon Turcsanyi, secretary to Joseph Cardinal Mindszenty.

Msgr. Turcsanyi is awaiting sentence on charges of inspiring a raid on the government's church affairs bureau during the anti-Soviet revolt of 1956.

An authoritative source said that although prosecutor Peter Csik asked for a stiff penalty he did not request a death sentence. Legal experts said the Roman Catholic clergyman might soon be sentenced to 15 or 20 years in prison.

Msgr. Turcsanyi is 65 and in bad health, and a lengthy sentence might confine him for the rest of his life.
